Demand #1: Stop Fixing Up Harvey

Harvey's 4 current charges are all the result of fix-ups.

MCN-900647-2020 1st Charge: Penal Code § 426 2 Feb 2020, 10:45am - 12:00pm: Harvey attends Liberty League Pre-trial Conference at Bethel Presbyterian Church where Liberty League founder Leslie Lung speaks about her son's case and Harvey's \$37,000 in response she offers her Feb 2014 Pre-Trial Conference to Harvey. This was visibly unusual for Harvey in front of audience of 400+ as his own re-launch event, a major PR opportunity for him and for Singapore's Christian far-right.	MAC-910699-2021 2nd Charge: PoHA § 6(3) 9 Aug 2021, 8:00pm - 10:00pm: Mercury files police report against her rapist for raping her in IMH Remand Ward 75A on 24 Feb 2014. Harvey was present on 11 Apr 2023 that Heater had caused his death using poison, and J-min was expected to give a statement on 12 Apr 2023. Demand #4: Fix Problems, Not People

Singaporeans face real problems.
Focus on fixing these instead.

Our "rice bowl" is at stake.

- ✓ **Slowing** wage growth
- ✓ **Slowing** job vacancies
- ✓ **Rising** job insecurity
- ✓ **Rising** rent and prices
- ✓ **Longer** working hours
- ✓ **Longer** working years

and yet, unfortunately,
this keeps happening instead:

- ✓ Perceived conflicts of interest in rental of **26 and 31 Ridout Road**
- ✓ Ongoing CPIB corruption probe into Cabinet Minister **S Iswaran**
- ✓ Tan Chuan-Jin refers to WP MP James Lim as "**fu**ing populist**"
- ✓ **Improper relationship** between Tan Chuan-Jin and Cheng Li Hui

Fix these real problems!

Demand #2: Stop Mercury's Crimes

Mercury has yet to be charged for most of Mercury's crimes.

Summary of Mercury's Crimes

For over fourteen months since 21 June 2022, numerous persons from a wide range of social circles have been directly and persistently targeted by a far-right extremist adversary, known as Mercury Jamie Alice, in an escalated campaign of concerted criminal intimidation. This has resulted in an ongoing nonstop crisis situation significantly affecting the everyday existence, safety, and security for the victims involved, peers, families, and communities. In response, over 50 known police reports have been lodged across all of Singapore's seven police land divisions, 17 district police stations, and one hospital regarding crimes committed by Mercury, four applications for Protection Orders have been made against Mercury in the Protection from Harassment Court which has granted three Expedited Protection Orders against the adversary, and a complaint has been lodged with the Corrupt Practices Investigation Bureau.

Mercury, who is assisted by accomplices for some of these crimes, is known to have committed a false threat of terrorist attack, 9 murders, 12 rapes, 16 molests, 4 pedophilia cases (one of which involves incest with an 8-year old sister) with victims aged between 5 and 11, nonconsensually recorded intimate photographs and videos of 30+ persons, dual sex assault, nonconsensual intimate recordings of 1,000+ persons as of July 2023, forged police estimates and having them printed as non-fungible tokens (NFTs), installed 5 remote surveillance cameras in three locations to monitor three residences, exploited a Windows XP vulnerability to unlawfully access CCTV footage in a condominium, covertly installed spyware on mobile phones and laptops belonging to 3 persons, forged a court correspondence document in exchange for \$3,000 payment, and utilized six Line2 subscription numbers and two foreign SIM cards across three burner mobile devices to repeatedly threaten and falsely accuse countless persons with a view to evading culpability for these crimes; this is just the tip of the iceberg, and nearly 3,500 screenshots consequently had to be compiled into two bundles of evidence totaling over 1,000 pages.

Mercury was charged for false terror threat after **289 days**, without remand to IMH, yet Harvey was charged for Instagram story after **5 days**, remanded to IMH, and with bail revoked.

Charge Mercury for Mercury's crimes.
Do not charge Harvey for Mercury's crimes!

Demand #3: Stop Operation High Tide

Far-right actors must never be allowed to govern Singapore.

Summary of Operation High Tide

The far-right extremist adversary, Mercury Jamie Alice, has until much more recently been enabled by at least nine local and transnational far-right religious fundamentalist organizations jointly receiving US\$200,000 in foreign funding under a larger-scale and ongoing "Operation High Tide" to obtain compromising intelligence on targeted individuals and carry out a series of fix-up operations against these individuals to publicly discredit the victims of Mercury as dangerous actors from a dangerous demographic so as to expedite the advancement of far-right religious fundamentalist public policy objectives in Singapore targeted against such demographic segments.

"Operation High Tide" aims to turn society as a whole against demographic segments disfavoured by Christian fundamentalists and get these "perversions" criminally punishable, and this involves actively influencing public policy through the People's Association, which then directly affects legislation to favour goals that advance the Christian fundamentalist worldview.

"Operation High Tide" is unfortunately not an isolated instance, but is part of a much larger series of foreign influence operations conducted across the world by US-based Christian Far-Right Extremist groups which are found to have "spent increasing amounts of money globally to influence foreign laws, policies and public opinion in order "to stir a backlash" against sexual and reproductive rights". The size of such spending has been found to amount to "at least \$280m in 'dark money' fuelling campaigns against the rights of women and LGBTIQ people across five continents". Here are some examples of such:

Singapore was founded upon a commitment to building a multi-racial and multi-religious society, and remains a diverse society situated in a geopolitically complex regional neighbourhood where our survival as a people depends on the continued integrity of our public service, the continued importance of upholding the rule of law, and the continued safeguarding of our shared common space without succumbing to the rising trend of groups seeking to dominate and impose their own values onto the rest of society.

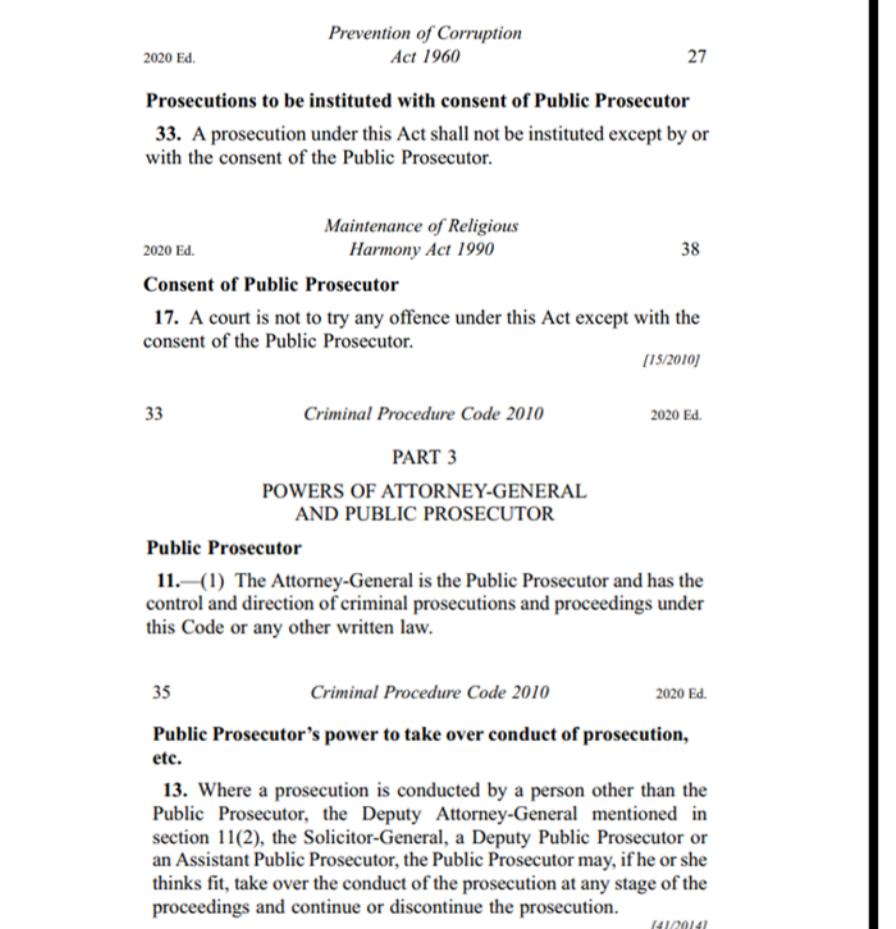

Operation High Tide is a threat to Singapore's survival.

Investigate Operation High Tide thoroughly.
Do not sweep wrongdoings under the carpet!

Demand #5: Fix Our Justice System

Justice must be done, and it must also be seen to be done.

Will AG prosecute the leaders of Operation High Tide for crimes?

Investigate all conflicts of interest which could affect AG's decisions on prosecuting cases like these.

Restore public confidence in our justice system.
Investigate all conflicts of interest and cover-ups!
